The Dogzy Universe

One universe, three complementary experiences, in release order: a strategy board game for everyone, a web3 game where the characters come to life as teenagers, then a major console game. The common thread: **the same characters, the same city, the same DOGZY token**.

Dogzy Family Universe

1 · New chapter

A career board game set in an evolving city. Playable demo online.

The Adoles-chiant of Dogzy Town

2 · Web3

The console characters as teenagers: missions and discoveries.

Dogzy Town

3 · Console game

The city, its iconic characters, its galas, heists and chases.

02 · NEW CHAPTER

Dogzy Family Universe

The core concept: **careers in an evolving city**. Players start with a basic character and climb the ladder. At each level, **a new board** opens up: bigger, richer, more ambitious.

1. **Line cook**
   The beach, the market, the first restaurant.
2. **Head chef**
   Premium restaurants, shopping mall, marina.
3. **Manager**
   Business district, hotel, casino, art gallery.
4. **Owner / Mayor**
   Luxury towers, arena, international port.

Two wheels, a thousand fates

At the start, players choose their mode: take on **other players online** or play **against bots** (4 difficulty levels, up to Expert). Online multiplayer is coming soon; the demo already offers bots and local multiplayer on one device.

The big wheel

It sets the move: **1 to 8 spaces**.

The bonus wheel

Visits · Steals · x2 · x3 · Chance · Career

Chance cards & buying businesses

Black-and-gold Chance and Career Chance cards. Players **buy businesses**, upgrade them and collect rent; holding the matching career gives an edge. A **strategic, challenging game**: the last player standing wins.

Businesses on the board

City hall, bank, hotel, restaurant, coffee shop, pizzeria, police station, hospital… Every business can be **bought**, **upgraded** (up to 5 levels) and earns rent. Each card shows its **matching career**: a player in that career collects more rent and upgrades for less.

05 · THE TOKEN

DOGZY & DOGZY TOKENS

A **utility** token, shared by all three games, planned on **Avalanche** and **not yet deployed**.

What it's for

Buying accessories, gold accessories, cosmetic gold characters and VIP cards in the Dogzy games.

How to get it

Dogzy token packs will be offered, with **prices in US dollars to be announced later**.

What it isn't

Not a financial product or an investment: **no return** and no future value is promised.

In the current demo, Dogzy tokens are simulated: no real cryptocurrency, no blockchain. This document presents a game concept; it is not an offer of tokens or securities.
